The Board understands that some of the classes in its schools may, from time to time, function as a school store or business.

In all cases where a school operates an in-school business all the possible related costs will be those of the school and must be provided for under the appropriate section(s) of the school's budget. The Board will not function as a special funding agency, nor will the Board assume any liability for the workmanship, safety or integrity of the task performed.

The principals of all the schools in Fort La Bosse School Division in which school stores operate will annually submit a statement(s) of expenditures and receipts from the store's sales, services and fund-raising activities to the Secretary Treasurer. The statement(s) submitted must conform to the expectations of the Board's financial officer(s) and designated auditor and be submitted as requested by the Secretary Treasurer.
