Last Reviewed - 23/04/12

Student participation in school affairs is an extension of the educational process whereby either selected individuals and/or groups may be called to discuss issues of importance to students.

In the development of regulations and policy concerning students and school instruction, the Board recognises the students' desire to voice their perspective and opinion. It will be in this regard that the input from Board recognised Fort La Bosse student representatives will be considered during Committee deliberations and/or Board meetings.
