Resolution # - 51/02

Implementation - 11/02/02

Legal Reference -

Last Reviewed - 15/05/12

The Board forbids the use of any form of corporal punishment.

For the purposes of this policy corporal punishment will include any form of physical force or restraint intended to either punish or control student behavior. The exception to this rule would be made for those actions taken to prevent a student(s) from causing injury or damage to themselves, others or physical property. In any circumstance where it may become necessary to physically restrain a student(s), care must be taken to ensure that no more force is applied than that which the situation requires.
