Fort La Bosse School Division recommends and supports all proactive measures to de-escalate potentially unsafe situations.

Division employees have the right to use reasonable restraint when confronted with a student who is endangering him/herself or others. Whenever possible trained staff should be called upon to ensure the safety of the student and other staff/students.

The use of physical restraint referenced in this policy is not recognized as a step in Fort La Bosse School Division Code of Conduct or Student Discipline, but is specific to individual student needs within their respective individual plans.
