Disputes arising between a parent or adult student and the school or School Division regarding Student Service Programming or Student Placement will be channeled through the most appropriate administrative route beginning at the operational level and progressing as follows:

- * Classroom Teacher & Resource Teacher
- * Principal/Supervisor (as applicable)
- * Co-ordinator of Student Services
- * Superintendent or designate; and
- * The Board

Should the written process for dispute resolution be considered a hardship in view of cultural norms, an alternate process which is acceptable to the family and recognizes the most appropriate administrative route will be outlined and documented.
