Cross Reference -

Resolution # - 37/98

Implementation - 09/02/98

Legal Reference -

Last Reviewed - 13/11/12

The elected representative of any constituency will be welcomed and encouraged to visit the schools within the Division to speak on the government operation of our country, and on parliamentary procedures. This will be done without bias toward any political party.

During the period prior to any election, individual candidates, regardless of party affiliation, will not be allowed or permitted to speak to groups of students during school hours except as outlined below.

Should a school extend an invitation to an elected representative to speak to a group of students on government operation or related matters, a similar invitation will be extended to candidates of all other parties contesting within the constituency concerned.
