Last Reviewed - 13/11/12

The Board respects the presence and rights of its neighbouring School Divisions. The Board also understands that this close proximity and like function provides unique opportunities for the development of mutually beneficial arrangements. It is for this reason that the Board works co-operatively with its neighbouring Divisions in the interests of providing an enhanced educational opportunity for all students.

The Board also appreciates the importance and change dynamic of various technologies in expanding the education opportunities for students. Therefore, when deemed appropriate, the Division may enter into shared agreements with one or more other schools, school systems and/or other educational and/or public/private authority(s) where such agreements may be beneficial to the students of Fort La Bosse School Division.

Furthermore, by maintaining an active membership and role in The Manitoba School Boards Association, the Board endeavours to assist in the development of an educational program that will be both current and relevant for all learners.
