Permission for Modified Programming

I, _____, parent of _____,

D.O.B. _____ have met with the above student's educational programming team and give permission for the implementation of the Modified Educational Plan as developed for the following curriculum areas:

We believe that these modifications are in the best interests of the student and are designed to maximize his/her learning potential. The program modifications will be documented on a Modified Educational Plan. Progress will be reported to us on a regular basis at regularly scheduled reporting periods, and we will be involved in the revision of the plans at least once a year.

We recognize that these modifications will result in modified credits or marks and that continuation in modified programming may affect our son/daughter's options in terms of future study and vocational options.
