

## FORT LA BOSSE SCHOOL DIVISION

### PD ENHANCEMENT FUND APPLICATION

Fort La Bosse School Division recognizes the importance of educators improving their craft by attending out of division professional development sessions. Encouraging individuals to be perpetual lifelong learners should not be confined to students only. Increasing financial demands however make this more and more difficult. Thus, the Fort La Bosse PD Enhancement Fund has been established as additional budgeted dollars at the central level that are available beyond school based allocated professional development dollars. It is the expectation that applicants will access their available school based professional development dollars to support this venture, as well, will be available upon request to share their experiences with their peers upon their return.
